WEIGHBRIDGE COMPONENTS

LOADCELL

Specifications

- Capacity-25 tonnes
- Accuracy class –C3
- Part no.-BM14A-C3-25t-20B-SC
- Extra-stainless steel, lightning protection, automatic recovery

Junction Box

LOADCELL MOUNT SPECIFICATIONS

Part No.-HM-14-403-10/50t

Features:

- Restrict horizontal movement
- Anti –turnover
- Correct automatic dislocation
- Easy installation
- Stainless steel anti rotate M8 Screw hole

INDICATOR MODEL XK3190GB

Specifications:

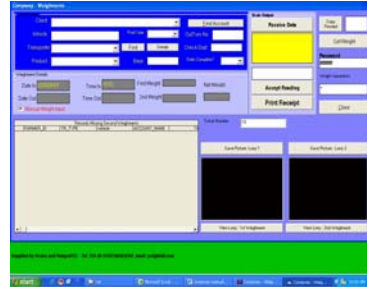

- 30 hours of full charge battery operation
- Drive up to 8 loadcells
- Programmable zero tracking
- RS 232 Interface
- Hold function
- Counting function
- Has a rechargeable battery
- In-built printer
- 7-bits LED digital display 0.56” in character height and 7 status indicating.
- Can display day/month/year and second/minute/hour

SOFTWARE

The system is a window based software known as “Smartweigh” with the following reports:

- ◆ Provides the operator with a screen to key in information data such as suppliers name, supplier account number, transporter’s name, vehicle registration etc
- ◆ Captures weighed data directly into the PC.
- ◆ Automatically prints a ticket with date, time, supplier’s name, account number vehicle registration number, weighing operator’s name.
- ◆ Supplier’s, transporter’s vehicle, weighing operators details entered are stored in a file and can be retrieved in future weighing operations.
- ◆ Stores all the data in a transaction file and automatically generates reports from the file on request.
- ◆ Has an editing facility for corrections of erroneous entries during and after entry.
- ◆ Has a security feature that prevents unauthorized access to the system.
- ◆ Provides an audit trail by maintaining a permanent transaction journal even offers entry of correction.
