CILICO CM550S

Introduction

CILICO CM550S is an all-in-one Instant-Printing handheld computer with thermal printer, with 4G/LTE, 2.4GHz & 5GHz Wi-Fi, 8 MP camera, NFC, GPS, Bluetooth integrated and optional UHF RFID reader, 1D/2D barcode scanner and PSAM Encryption.

This barcode scanner with built-in high speed printer, it can be printed at anytime and anywhere. 58mm line thermal printer, low noise, energy saving, 20mm/second, printing thousands of orders (under full power), such as lable, receipt, ticket, barcode, sticker, website, catalogs, etc.

CM550S is based on Android 5.1. CILICO ETs transforms Android from a consumer OS to a true enterprise-class OS, providing enterprise class security and device management, as well as enterprise data capture capabilities. CILICO CM550S series all-in-one handheld computer with ETS solution (IoT OS and MDM) has successfully used in many data collection applications, especially ticketing, public transportation, retails, bank, warehouse inventory, track and trace solutions and so on.

Specifications

Instant-Printing, MORE EFFICIENT
1D/2D barcode, while scanning while printing
Thermal printing barcodes, receipts and stickers instantly
Printing Speed–up to 40mm / sec
Make inspection, ticketing and inventory more efficient
Adhesive Lable Paper for Printer
Special for CM550S

Data Capturing Handheld Computer,
ALL-IN-ONE
RFID Reading and Writing; 1D/2D Barcode Scanning
HD camera for high resolution photos, Instant Thermal Printing
2.4GHz &5GHz Wi-Fi, 4G/LTE, GPS+BDS
Optional Fingerprint Module, PSAM Encryption
To help your employees work faster and smarter

CILICO CM550S

Powerful RFID Reading and Writing
Near-field communications (NFC)
HF RFID: 13.56MHz (ISO14443A), reading range up to 4cm
UHF RFID: 900-925 MHz, EPC C1/G2, ISO18000-6B/ 6C, reading
Optional UHF RFID

Higher Performance
Quad-core CPU enables more robust application performance
at better speeds and power efficiencies
2GB RAM+16GB Flash Memory
User-accessible microSD card up to 64 GB

Higher Scanning
Fast 1D/2D Barcode Scanning (OPTIONAL) with dedicated SCAN button

Fingerprint module certified by the FBI
Optionally integrated TCS1 silicon fingerprint sensor certified by the FBI
More suitable for the government, banks, financial institutions and
other places with high needs of security

Wireless Connectivity
IEEE 802.11 a/b/g/n
2.4GHz&5GHz Dual-Band Wi-Fi
4G, GSM Quad Band, TDS B34/39, WCDMA B1/2/5/8,TDD B38/39/40, FDD B1/3/7/8/20

Pocketable Design
Makes your workers more efficient and better serve your customers
Dimensions (std. battery)220mm*93mm*39mm/8.66 in. L*3.66 in. W*1.54 in. D Weight With standard battery:
13.62 oz./386g

5 Inch High Definition Screen
High Definition (1280 x 720) bright color LCD with backlight
Premium display technology and the brightest screen in its class
Easy to see in any lighting — even in bright sunlight
Wet hands operating is available
1280*720

The Best Battery Life
You need a device that can serve your employees all shift long
4000 mAh battery lets you take it to extremes,
which lasts longer than universal smartphones and enterprise-class devices

Flexible Charging
Three-slot device and battery chargers reduce backroom space requirements
And wired charger and cradle charger are available
